News

At the beginning of December 2018, FRA published a new [online tool](#) to assist Member States, policymakers, and stakeholders when confronted with anti-Muslim hatred.

The database offers information on international, European, national, regional, and local-level case law and rulings relating to hate crime, hate speech, and discrimination against Muslims. It includes the courts' reasoning, findings, and considerations as well as key facts for each case.

In addition, the database contains relevant national, European, and international human rights organisation decisions, and reports as well as findings by human rights and equality bodies and organisations.

Users can access research, reports, studies, data, and statistics on these issues.

As an online tool, it offers a unique street-level view of victim support services in all 28 EU Member States. It also provides guidance on where to find appropriate information, support, and protection.
