## News

On 17 November 2021, the Committee of Ministers of the CoE adopted a [second Additional Protocol to the Cybercrime Convention on enhanced co-operation and disclosure of electronic evidence](#). The second additional protocol lays down *inter alia* the criteria for direct cooperation between state parties and private entities when obtaining domain registration information or subscribing to data.

The protocol provides a legal basis for:

- Disclosure of domain name registration information;
- Direct cooperation with service providers for subscriber information;
- Expedited cooperation and disclosure in emergency situations;
- Additional tools for mutual assistance, such as videoconferencing and joint investigation teams.

The text should be open for signature in May 2022.
